Group 1: William Beck, and Robert Lucio

Homework 13 Mini Report

In this document are the screenshots requested for the Homework

Due to trying to fit them as large as possible, only one will be present per page

Group 1: William Beck, and Robert Lucio

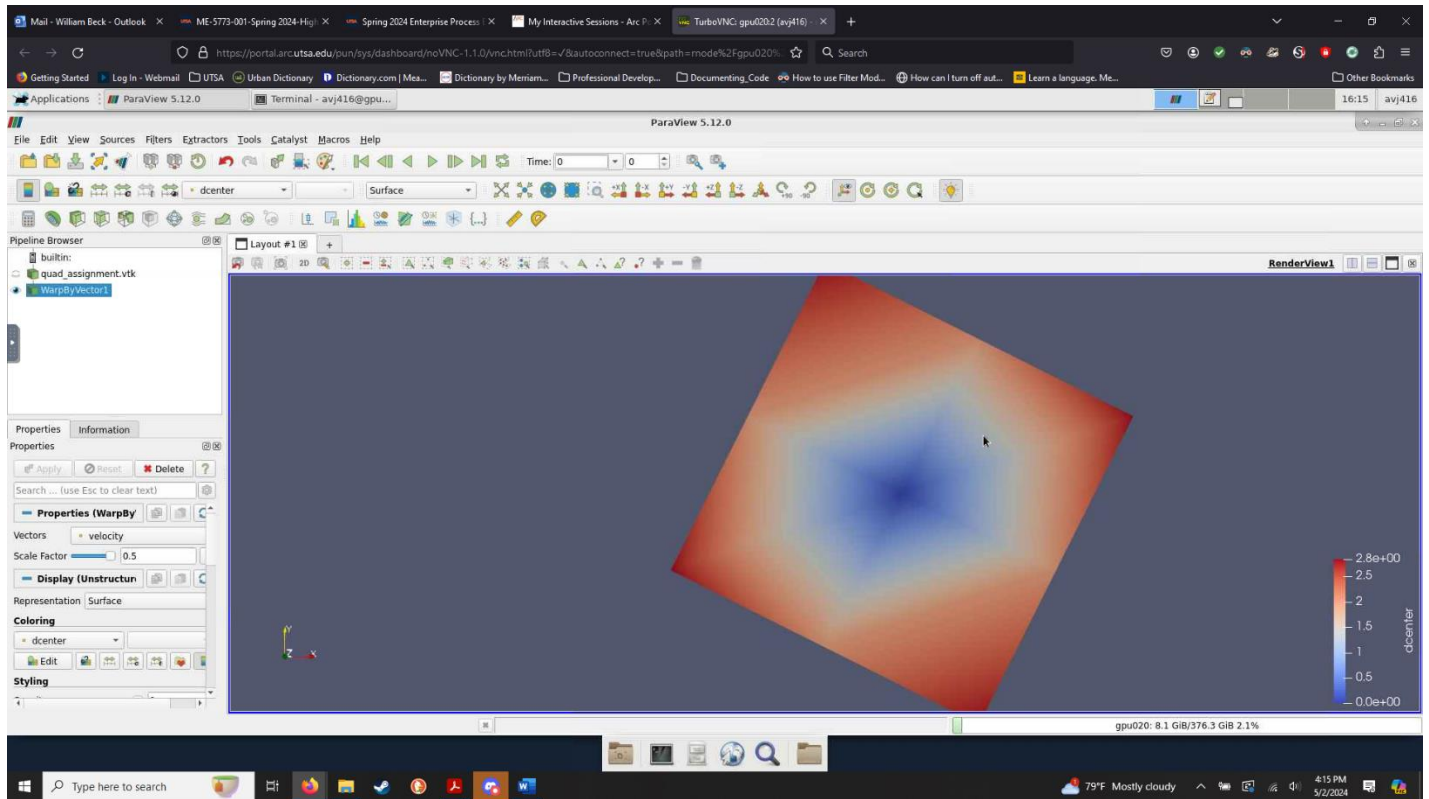

Note: when warping by field, the visualization returned to dcenter; it did not stay on velocity.
Additionally, the view reverted to just a surface view, rather than a surface with edges view
